Sicherheitshinweise

Sie dürfen das Möbel nur dann montieren und in Betrieb nehmen, wenn Sie die Montageanleitung sorgfältig gelesen und diese auch verstanden haben. Das Kühlmöbel muss von Fachkräften gemäß den Angaben des Herstellers installiert werden und dabei den örtlich geltenden Vorschriften für den Betrieb kühltechnischer Anlagen entsprechen. Eine falsche Installation kann Schäden an Personen, Tieren und Dingen verursachen, für die der Hersteller nicht zur Rechenschaft gezogen werden kann. Daher muss die Installation ausschliesslich durch technisch sachkundige und kompetente Fachleute durchgeführt werden, die über die entsprechende Installationsanweisung verfügen. Die bestimmungswidrige Benutzung sowie unzulässige Veränderung der Konstruktion führt zum Ausschluss jeglicher Haftungsansprüche. Die Reinigung des Wandkühlregals muss gemäß der Reinigungsanleitung durchgeführt werden.

Nehmen Sie daher keine technischen Änderungen an folgenden Punkten vor, außer die Änderungen wurden vom Hersteller autorisiert:

- Kältetechnik
- Elektrik
- Wasserabfluss
- Schutzvorrichtungen

Vor der Reinigung unbedingt Strom für jeweiliges Möbel abschalten!

Bei der Möbelmontage sind alle nationalen und internationalen Vorschriften und Normen, sowie die Unfallverhütungsvorschriften einzuhalten.

Dieses Symbol zeigt an das Montage korrekt ausgeführt wurde

Dieses Symbol zeigt an das Montage nicht korrekt ausgeführt wurde

Dieses Symbol deutet auf Hinweise für den korrekten Aufbau des Gerätes hin. Diesen Hinweisen keine Beachtung zu schenken, könnte zu Störungen am Gerät oder der Umgebung führen.

Dieses Symbol steht für mögliche Gefahren für Leben und Gesundheit einer Person und/oder eine gefährliche Situation. Das Ignorieren dieser Hinweise könnte zu Schäden an Ihrer Gesundheit führen!

Safety instructions

Before starting to assemble the multideck cabinets, you have to read carefully and understand the assembling instructions. Any kind of re Fridgeration issue must be installed by frigorist experts in accordance with the manufacturer´s instructions and must comply with the locally applicable regulations for the operation of cooling systems. Incorrect installation can cause damage to people, animals and things for which the manufacturer cannot be held responsible. Therefore, the installation must only be carried out by technically knowledgeable and competent specialists, who have the appropriate installation instructions. Improper use and inadmissible changes to the consntruction lead to the exclusion of all liability claims.

The cabinet must be cleaned according to the cleaning instructions. Therefore, do not make any technical changes to the following points unless the changes have been authorized by the manufacturer.

- Refrigeration
- Electrics
- Water drainage
- Safeguards

Before cleaning, switch off the electricity for the respective cabinet!

When assembling the cabinet, all national and international regulations and standards, as well as the accident prevention regulations, must be observed.

This symbol indicates that the assembly was carried out correctly.

This symbol indicates that the assembly was not carried out correctly.

This symbol indicates information on the correct structure of the device. Failure to heed these instructions could lead to mailfunctions in the device or environment.

This symbol stands for possible dangers to life and health of a person and/or a dangerous situation. Ignoring this information could damage your health.
